

LEADING TRAINING PROVIDER FOR THE GLOBAL CRUISE INDUSTRY

Exclusive Training Partner of the FCCA

**At Aquila,
We don't just teach best practices.
We live them.**

Our "Living Lab" is our own cruise operation in the Port of Saint John, Canada, where we take over 60,000 passengers on tour each year, working with every cruise line calling at our port.

It's where we test, adapt, and prove what works—so every training we deliver is practical, relevant, and grounded in real operations. That's the power of Aquila's Living Lab — it's more than a classroom, **it's the cruise world in motion.**
